An introduction to the Christian faith

We are all trying to find meaning in this life. None of us wants to live a pointless existence. Christians believe that we can find meaning because God has placed eternity in our hearts.

We believe that Jesus is God stepping out of eternity into human history. While he was here he made some very radical claims and Christianity is

largely based on those claims.

Join us for dinner on Sunday evenings for 12 weeks as we explore those claims. What exactly did Jesus claim? Can we believe them? Do they have significance for our lives in 2008? Can you and I truly find meaning in this life?

There is no cost and no obligation. We look forward to welcoming you and all your questions.
